Dave Barrows
Dale Poel
Sanni Yaya
Nassera Touati

Introduction

2014 was not an easy year for TIJ. The Editor-in-Chief spent a considerable amount of time, energy and money developing an agreement with Rutgers University, which did not work out.

Old Business

Expand outreach:

The Editor-in-Chief promoted TIJ at several conferences:

2014:

International Political Science Association workshop

International Research Society for Public Management, and delivered a paper

American Society for Public Administration (ASPA), sponsored and chaired a TIJ panel

Prairie Political Science Association and delivered a paper

2015:

LIPSE: Learning from Innovation in Public Sector Environments in Belgium

Canadian Political Science Association, and delivered a paper

International Public Management Network, and delivered a paper

Editorial Board Members promoted TIJ/LRI during 2014:

Sanni Yaya:

European Group for Public Administration - Attended a meeting on 12 Sept 2014

African Association for public administration and management (AAPAM) – Attended a event on June 2015

Jeanne Marie Col:

American Society for Public Administration (ASPA) March 2015 (promoted the journal at the Fred Riggs Symposium for Comparative Public Administration -- one day before the conference)

Dave Barrows:

Included in the list of journals for the graduate seminars I teach, ARNOVA Conference in Chicago

Funding: no change. TIJ is running a large deficit, paid by Eleanor Glor.

1. Strategic Plan

Approved Committees and their Membership for 2014:

Team Scope (SCP) (New): Ruth Hubbard (resigned), Caroline Andrew

Team Services (SRV) (New): no volunteers

Team Internal Operations (OPS) (New): Dave Barrows

Team Performance (PFM) (New): No volunteers

Finance: Mario Rivera, Monica Dowling (no longer member), Jerry Hammersmith, Jenna Logeais (student) (does not respond to emails), Dave Barrows

Strategic Planning: Ken Nichols (resigned), Eleanor Glor, Don Klingner, Naim Kapucu (inactive)

Did not volunteer:

Jos Raadschelders (he has committed to do so during 2015)

Iain Gow

None of the committees provided a report.

Technical improvement:

During 2015 Sage Electronic approached us to publish TIJ. They would provide an electronic submission system and a small payment to TIJ. Authors would be charged to publish. No action since end of June, as a change of personnel has occurred. Transfer of TIJ to a library electronic system is on hold because of the Sage initiative. A library would require free access to their clients and the right to deposit papers published by TIJ in their system.

Sage confirmed in December that they are no longer interested.

Does anyone know how to get Outlook to distribute large lists, such as the one used for TIJ announcements?

I have never done this with Outlook Sanni]. [I have been doing it, but I keep getting messages that the message was not delivered. Eleanor].

Editorial Board

Thank you to editorial board members who submitted and reviewed papers during 2014 and 2015.

Contributions members are expecting to make during 2015:

Review papers (Nassera Touati).

Editorial Team:

Editor-in-Chief: Eleanor Glor
 Senior Associate Editor: Mario Rivera
 Editor, La Revue de l'innovation : Sanni Yaya
 Editor, Book Reviews: Howard Doughty
 Managing Editor: Vacant

Publications Report

Dispensation of Papers, 2014 Summary. During 2014, papers were dealt with as follows.

Number of Papers submitted	Number Rejected	Revise & Resubmit	Number Approved	Number Published
Managed by E-I-C (2 open issues)	110	9	27	15
Managed by special editor Howard A. Doughty	2		6	13
Total	112	9	33	28

Submissions:

Submissions 2014	
Total Number	337
Total Individual Papers Submitted	92

Types of Papers Published. During 2014 The Innovation Journal published 13 peer reviewed papers, 10 discussion papers, 2 case studies , 2 review essays and 20 book reviews.

Publishing Plan During 2015 the journal published a special issue on OECD Health Care Reform, edited by Sanni Yaya, a 20th anniversary issue, and an open issue edited by Mario Rivera. During 2016 a special issue on Innovations in Inspection and Oversight, edited by Jeanne Marie Col, and two open issues are planned. Calls for papers are available in TIJ at: <http://www.innovation.cc/call-for-papers.htm>

Section Reports

La Revue de l'innovation. A special issue of The Innovation Journal on Health Care System Reform in OECD Countries, by Sanni Yaya, the La Review Editor, was published in 2015. Two articles were published in French during 2014 and 2015:

[L'appropriation des innovations managériales par les établissements de santé. À propos du rôle des agences régionales](#): L'exemple de l'utilisation des données de performance, par Nassera Touati et Brigitte Brabant (4/18/2015)

[La mise en œuvre des mesures agroenvironnementales territorialisées en France: un élargissement de la démocratie? L'exemple des régions Centre et Languedoc-Roussillon](#), par Maude Benoit, et Caroline Patsias (7/5/2014).

The full report is available in Appendix A.

Book Reviews. In Volume 19 of The Innovation Journal, a total of 20 book reviews and 2 review essays were published, double the numbers in both categories that were published in the previous year and roughly double the average over the past decade. The goal of between 15 and 20 was therefore met. Whether this number can be maintained in the future will depend on the willingness of both readers and (especially) members of the Editorial Board to contribute. The Book Review Editor is eager to receive such submissions at any time and to assist potential reviewers in obtaining copies of desired volumes from their publishers.
Howard A. Doughty

Indexers and Aggregators.

The Innovation Journal continues to be indexed or aggregated by Ulrich's International Periodicals Directory (Proquest), CSA Worldwide Political Science Abstracts (Proquest), Political Science full text (ProQuest), Ebsco, Cabell's Directory and Scopus.

Citations

Citations of Non-Elite Journals (like TIJ):

The most highly cited papers published by TIJ are outlined in Appendix B. More highly cited papers are being published in non-elite journals such as The Innovation Journal. The social sciences had the smallest increase, but started with the highest baseline (Table 2: Change in the fraction of citations to non-elite journals over 1995-2013).

Source: Rise of the Rest: The Growing Impact of Non-Elite Journals, by Anurag Acharya, Alex Verstak, Helder Suzuki, Sean Henderson, Mikhail Iakhiaev, Cliff Chiung Yu Lin, Namit Shetty, Google Inc, October 9, 2014. Collected Oct. 11, 2014 at: <http://arxiv.org/pdf/1410.2217v1.pdf>)

Members of the Editorial Board are asked to make an effort to cite material from The Innovation Journal.

Finances

Members of the Editorial Board had decided to introduce a submission and publication fee for authors at the 2013 Annual Meeting. Implementation was delayed while negotiations occurred with Rutgers University. It is now being implemented.
to two Jan 2015 proposals:

New Business

Possible Topics for Future Special Issues

Innovations in governance ; innovative interventions for vulnerable populations. Volunteers for editors?

Social Media

No volunteer

Electronic submission and tracking system

Discussions have occurred with two Canadian university libraries that could perhaps be reactivated but they would require TIJ to deposit its contents on their servers in order to allow free access. TIJ would then lose knowledge of how many readers it has.

Readership

TIJ defines a reader as someone who spends more than 30 seconds on the site; that's more than I spend examining most issues of journals that I check out. . During 2014, TIJ/LRI had 80,432 individual readers spend more than 30 seconds on the site (Appendix F). The most downloaded papers were

	Downloads:
1. /case-studies/barrows-ed.pdf	129035
2. /scholarly-style/ali_samman_new+media_impa...	81022
3. /scholarly-style/classic-theories.pdf	66690

Status Report

Editorial Board:

The current members of the Editorial Board are listed in Appendix D. Several members resigned from the Editorial Board during 2014 or did not meet their commitments as members of the Editorial Board. Our thanks are offered to them for their contribution to the journal.

Editorial Board Substantive Contributions to TIJ 2013

The Social Sciences and Humanities Research Council (SSHRC) response to The Innovation Journal's 2011 application emphasized that TIJ Editorial Board members could do more to contribute to TIJ. This criticism was not repeated in the most recent application, so this is good news.

Committee Reports

None submitted.

Publications Report

Numbers of Papers Published

During 2014, one Introduction was published, 25 peer-reviewed papers, 10 discussion papers, one case study, two review essays and twenty book reviews. La Revue de l'innovation published one peer-reviewed paper in French during 2014 (see <http://www.innovation.cc/francais/index.htm>).

Calls for papers are available in TIJ at: <http://www.innovation.cc/call-for-papers.htm>

Aggregators

TIJ and LRI were indexed by the following aggregators during 2014:

1. Ulrich's International Periodicals Directory (Proquest)
2. CSA Worldwide Political Science Abstracts (Proquest)
3. Political Science full text (ProQuest) (new)
4. EBSCO
5. Cabell's Directory

Indexers

Scopus SCImago worldwide rankings of public administration journals identified citations using Google 1996-2013. As of 2010 it started listing The Innovation Journal. The details as of the end of 2013 (it takes a minimum of two years to produce a report) are provided in Appendix E. Using an equivalent measure to that offered by Thompson Reuters, for 2010-2013 TIJ's mean citations per article during the first two years after publication is 0.45. Of the 113 public administration journals listed, as a sampling, Journal of Public Administration measured an average of 0.33 cites per paper, Journal of Public Affairs 0.6, Review of Administrative Sciences 0.87. The report on the top 113 journals is available on request to me. Using the same system of measurement as Thompson Reuters, Scopus SCImago ranked The Innovation Journal citations within two years 68th among 113 top public administration journals worldwide as of the end of 2013.

TIJ applied for indexing a second time with Thompson Reuters, which does not list many electronic journals. We have not heard any results (Sanni Yaya is handling this—see Appendix A). While Thompson Reuters relies considerably on the two-year citation record, public administration articles tend to take longer to become known. The Editor-in-Chief of Public Administration Review (PAR), the lead ASPA journal, strongly recommends against indexing with Thompson Reuters for public administration journals. Sanni will no longer pursue indexing with Thompson Reuters.

Readership - Calendar Years 2008 to 2014

TIJ had a large number of readers again during 2013. Readership may be aided by the table of contents sent out by the Editor-in-Chief for each of the three issues published. Rutgers will be doing this in future. Visits to the website are compared below for 2008 to 2013. Readership was down slightly during 2013 and had been up in 2012. In other words, readership is stable and high.

	2014	2013	2012	2011	2010	2009	2008
Visits (Sessions)	620,588	542,406	553,975	484,240	393,606	282,013	275,397
Page views (HTML)*	2,020,673	1,974,299	1,983,270	1,798,425	1,398,569	1,002,053	978,548
Hits (HTML+ PDF+ images+ CSS)	2,193,573	2,195,154	2,220,665	2,049,112	1,673,292	1,198,888	1,170,766
Unique IPs ("unique visitors")	99,402 unique IPs	101,373	100,049				
Visits-to-visitors ratio	6.24	5.35	5.53	4.82	3.88	3.22 (2009-20)	2.54 (2008-09)

* TIJ no longer publishes articles in HTML

The Innovation Journal (TIJ) had a slight drop in unique readers in 2014 and increases in visits, page view and hits. TIJ defines a *reader* as someone who stays on the website for longer than 30 seconds. This definition eliminates search engines (which only remain for a few seconds), those who did a search on a related word or words, but were not looking for TIJ, and those who consult a table of contents but do not read any part of a paper. According to this definition, TIJ had 52,206 readers in 2011, 62,023 during 2012, 68,417 in 2013 and 80,432 in 2014. The one-year increase in 2014 was 17.5 per cent.

	2014 Readers:	2013 Readers:
31-60 sec	11253	11248
1-3 min	13580	12422
3-10 min	16055	13513
10-30 min	24573	18039
30+ min	14971	13195
Total readers	80432	68,417

TIJ was read in 136 countries during 2013 and 137 countries in 2014. The ranking of countries from which most readers came is similar to that in 2011 through 2013. The years 2013 and 2014 are compared below.

2013:

Citations

Scopus SCImago

Scopus ranks public administration journals by citations. Its SJR indicator measures the scientific influence of the average article in a journal, expressing how central to the global scientific discussion an average article of the journal is. The measure Cites per Doc. (2 years) measures the scientific impact of an average article published in the journal within two years of publication; it is computed using the same formula as Journal Impact Factor™ (Thomson Reuters). It also measures the impact within three years. Among the public administration journals listed, TIJ ranked 68th worldwide in 2013. TIJ'S ranking is outlined in Appendix G.

In 2012 there were 566 North American and 691 European public administration journals listed by Scopus. The top ten were Administrative Science Quarterly, Journal of Public Administration Research, Educational Administration Quarterly, Journal of European Public Policy, Public Administration, Review of Public Personnel Administration, International Public Management Journal, Journal of Policy Analysis and Management, Journal of Social Policy, and Policy Studies Journal.

SCImago

As of 2013, SCImago reported that TIJ was the second most cited Canadian public administration journal. They only list the three top Canadian public administration journals. The one above us is an administration journal that covers all sectors (private, non-profit and public sector), not just the public sector like The Innovation Journal. SCImago ranked us internationally in Q3, although we had higher rankings than many of the journals that appeared above us. This is not explained. As far as I can determine, it is because we have a considerable number of self-citations. This is the problem when a journal is a key player in establishing a new field. Some journals are publishing its papers when they are ready to be published as a way to increase citations. It is more costly in terms of Webmaster time to do this. We tend to get most of our citations after SCImago's two and three year windows, as our Most Cited Papers list indicates. Authors are, however, paying attention to this and one considered not submitting to us because we were not in Q1 and Q2 and she was required to publish in journals at that level. She did submit in the end, however, because she found us in Q2 in Jufo. This issue has been identified to me in particular by Europeans.

On another positive note, we are receiving more recognition from Canadians. For example, Keith Brownsey, Mount Royal College, well known Canadian academic, wrote to me December 10, 2015, saying: "I am writing to say how much I appreciate *The Innovation Journal*. Many thanks for all

your efforts on what has become a very good publication.” The papers by our Canadian Editorial Board members have helped with this: thank you very much.

Google Scholar

A search of Google Scholar November 24, 2015 found the six most cited papers published in TIJ were the following:

A more complete list is provided in Appendix B and an even more complete one is available from me.

Conclusion

TIJ is a success at the level of readership and author interest in publishing in TIJ. TIJ is being widely cited, ranking 39th amongst 1157 public administration journals worldwide for ratio of citations to papers within the first two years of publication. We have not yet found an adequate funding model for TIJ, however. We have found some funding for bits and pieces but no overall funding model has been created, and so we are moving to charging authors.

Eleanor Glor
Editor-in-Chief and Publisher

Appendix A: Section Reports

La Revue de l'innovation : La Revue de l'innovation dans le secteur public

Rapport annuel 2014-2015

La revue de l'innovation favorise l'échange d'idées et de renseignements sur l'innovation dans le secteur public. En ligne depuis plus de dix-huit ans, La Revue de l'innovation est bien plus qu'une simple publication électronique. Elle constitue une lecture essentielle pour les praticiens, chercheurs, étudiants et tous ceux qui sont intéressés par l'innovation dans le secteur public.

1. Number of articles submitted to LRI in 2014: 8

2. Number approved for publication during 2013: 6

1. Introduction: Special Issue on Innovations in Health Care System Reform in OECD Countries, by Sanni Yaya, Interdisciplinary School of Health Sciences and Georges Danhondo, School of Sociological and Anthropological Studies, both of University of Ottawa, Canada
2. Key competencies for promoting service innovation: any implications for the health sector? by Temidayo O. Akenroye, The Royal Wolverhampton Hospital National Health Service Trust, Wolverhampton, United Kingdom and Christoph W. Kuenne, University of Erlangen-Nuremberg, Nuremberg, Germany
3. L'appropriation des innovations managériales par les établissements de santé. À propos du rôle des agences régionales: L'exemple de l'utilisation des données de performance, par Nassera Touati, Professeure agrégée, École Nationale d'Administration Publique, Québec, et Brigitte Brabant, Agence de la santé et des services sociaux de la Montérégie, Québec, Canada
4. How New Governance Shapes Changes in the Long-Term Care Sector in Ontario, Canada, by Poland Lai, Osgoode Hall Law School, York University, Toronto, Ontario, Canada
5. Innovation through Public-Private Partnerships in the Greek Healthcare Sector: How is it achieved and what is the current situation in Greece? by Konstantinos Biginas, Business School, Walden University, Minneapolis, USA and Stavros Sindakis, Institute for Knowledge and Innovation SE Asia, Bangkok University Bangkok, Thailand
6. Systemic Innovation Model Translated into Public Sector Innovation Practice, by Juha Koivisto, Pasi Pohjola, Niina Pitkänen, all of National Institute for Health and Welfare, Helsinki, Finland

4. Indexers and Aggregators

While TIJ and LRI have been indexed with the followings (Proquest, CSA, EBSCO and Cabell), we are still working to get indexed with Thompson Reuters. They are extremely slow to respond to requests to be indexed and don't answer their mail. We were told there is a fee associated with this but recently learned this is free. It is access to the database products they charge for. We will continue our efforts to deposit to Thompson to maximize discoverability.

Appendix E: SJR SCIMAGO Journal and Country Rank

SJR SCImago Journal and Country Rank

Journal Rankings

No 2014 data available yet (reported two and three years after the year)

Check at: https://en.wikipedia.org/wiki/SCImago_Journal_Rank

The Innovation Journal ranked 68th among 113 public administration journals on citations 2011-13. Canadian Public Administration, Canada's flagship public administration journal, ranked 73rd. Canadian Journal of Administrative Sciences ranked 63rd but unlike TIJ it addresses administration in sectors, private, non-profit and public sectors (in other words, it has broader scope), and is used considerably by the private sector.

Information on TIJ is available at: <http://www.scimagojr.com/journalsearch.php?q=18100156705&tip=sid&clean=0>

Cites per document within two years after publication vary between 0.4 and 0.5 per document.

Citations per document climb steeply in years 3 and 4.

In terms of citations, it should be remembered that TIJ also publishes in French, and since there are fewer people publishing and citing in French, these articles may bring down the citation level.

Rank	Title	SJR Quartile	H index	Total Docs. (2013)	Total Docs. (3yrs)	Total Refs.	Total Cites (3yrs)	Citable Docs. (3yrs)	Cites / Doc. (2yrs)	Ref. / Doc.	Cntry
68	TIJ	0.251	5	25	77	1051	57	71	0.45	42.04	Can.
